

**Oleh Pliuta · Croatia**

**Senior Front End Developer (Angular) — Nortal**

Senior Angular/TypeScript developer — **10+ years, 30+** web and mobile applications (fintech, healthcare, logistics, e-commerce/marketplace).

**Role fit**

Built real-time monitoring interfaces for production use: WebSocket-driven logistics dashboards, WebRTC video in telemedicine, HLS video in an LMS — directly relevant to camera monitoring and remote video review in railway surveillance.

Ship Angular apps at scale with standalone components, signals, RxJS, Nx monorepos, lazy loading, and shared UI libraries; comfortable working within established style guides (Televic UI / PrimeNG).

Daily stack: REST + WebSockets, SASS, unit and E2E tests, Git, Docker, CI. Node.js/NestJS background; can support Python/FastAPI when needed.
